

Nancy Jaber has been homeschooling her 5 children since 1997. She has a bachelor of science degree from Eastern Michigan University, but her love is sewing. When she gave her life to Jesus, He impressed upon her three things, one of which was to learn how to quilt. Hand sewing is helpful in the fine motor development of children. And it's fun! She teaches two classes: Tiny Stitches and I Can Sew. Tiny Stitches is a hand sewing class that teaches the basic embroidery skills and hand sewing. I Can Sew is a class for kindergarders to second grade; students will learn basic stitches and make a variety of stuffed animals.
