none							yes	
Required Materials (To Be Supplied by Family)								
The book EXPLORING CREATION WITH ZOOLOGY 3: LAND ANIMALS OF THE SIXTH DAY by Jeannie K. Fulbright (Apologia Educational Ministries Inc)								
Description								
This year we will be traveling all over the world studying animals God created on the sixth day. Our journey will take us from the jungles of Asia to the rainforests of South America and even to our own backyards. We will study ".....living creatures according to their kinds: livestock, creatures that move along the ground, and wild animals, each according to its kind." Genesis 1:24 From mammals to reptiles, dinosaurs to arthropods and gastropods to worms we will discover what these amazing species eat, where they live, and what they do to attract a mate. Like my past classes this will be a lapbook class.								
Homework / Expectations / Other Info								
Your student will be expected to read half a chapter each week. I love teaching these classes but I love it more when the children come prepared and participate in class. So there will be incentives for class participation.								

*Materials Fees and Instructor Fees are per semester unless otherwise indicated in the Other Information.

* Credit Hours: COVE does not issue high school credits. These are suggested credit hours to be assigned by the parents. Suggested grade is given by teachers. Final grade assignment is the responsibility of the parent.
