Required Materials (To Be Supplied by Family)								
<p>1. Discovering Design with chemistry by Dr. Jay L. Wile ISBN 978-0-9962784-6-1</p> <p>2. Answer Key and Tests ISBN: 978-0-9962784-7-8 (not required but helpful)</p> <p>The two are available at both CBD.com and Bereanbuilders.com for \$69 for both books or \$59 for just DD with Chem</p> <p>3. Lab kit can be rented from me for \$15 for the year. 1st semester only (if you own a lab kit, I will need to approve it before class begins!!)</p> <p>4. Three ring binder with tabs</p> <p>5. Calculator</p>								
Description								
<p>This course is designed to be a college prep high school chemistry course and gives the student a rigorous foundation in order to prepare him/her for a college level course. Although not an easy class, I will try to make it interesting and practical. Students will complete a project second semester, that shows their knowledge of Chemistry. We will cover 14 chapters. The course includes a lab period on Thurs where students will do a prelab, experiments and turn in lab reports. These can be shown to college advisors as proof of taking a science lab in high school. As the title suggests, I include God's design elements into the course.</p>								
Homework / Expectations / Other Info								
Expect a significant amount of homework due every week								

*Materials Fees and Instructor Fees are per semester unless otherwise indicated in the Other Information.

* Credit Hours: COVE does not issue high school credits. These are suggested credit hours to be assigned by the parents. Suggested grade is given by teachers. Final grade assignment is the responsibility of the parent.
